EDUCATION

Bachelor of Engineering, St. Joseph's Institute of Technology 2022 - 2026
Computer Science, CGPA: 8.44
Relevant Coursework: Networking Basics, Cybersecurity Fundamentals

Good Shepherd Matriculation Higher Secondary School 2020 - 2022
Higher Secondary Education - 82.17

SKILLS

Networking and Cybersecurity	Networking Basics, Cybersecurity Basics, Packet Tracer, Network Security,
Programming	Python, SQL, C
Tools	Packet Tracer, Virtual Box, Linux, Git
Soft Skills	Fluent in English and Tamil, Proficient in Malayalam
Certifications	Fortinet - Networking Fundamentals
	CISCO Netacad - Introduction to Cybersecurity, Networking Basics
	EC Council - Ethical Hacking Essentials
	Infosys Springboard - Linux for Beginners

EXPERIENCE

PROMPT Infotech, Intern August 2024
Coimbatore, Online

- Configured and tested networks using Cisco Packet Tracer, reducing troubleshooting time by 20%.
- Conducted vulnerability assessments on 10+ systems to identify and mitigate security threats.
- Gained hands-on experience in Linux-based environments, enhancing system performance and security.

PROJECTS

Sentiscope - Sensitivity and Toxicity-Based Comment Classification February 2024

- Built a machine learning model analyzing 1,000+ comments with 98% accuracy using Google Perspective API.
- Improved moderation speed by 40%, automating content screening for sensitive topics.

AWARDS AND HONORS

Runner-Up, Paper Presentation - 18th National Level Technical Symposium, SRM Valliammai Engineering College. February 2024
Team Contributor - Trained over 200 students in video editing through the Tech Pyndroid Internship Program. May 2024

EXTRACURRICULAR ACTIVITIES

Basic Portfolio July 2024

- Created a simple yet functional website incorporating responsive design principles that improved user accessibility across devices by 100%, resulting in increased engagement metrics during the testing phase of development.
- Demonstrated a growing interest in web development, with a focus on improving skills.
